

What's Cooking in Food Service?

It's a debit card system that you can use to purchase prepaid meals and A-la-Carte food items at all cash registers. No need to carry cash anymore! You can be a part of the exciting program by establishing an account with Food Service. It's easy. Just deposit money (cash or check) in any amount into your personal credit account. Please make checks payable to "VBPS Food Service". At lunch, scan your picture ID card/number at the cash register to access your account, place your order and your total bill will be automatically deducted from your account giving you a balance. This debit card system also ensures confidentiality for students eligible for free or reduced meals. It eliminates identification and also provides the features of prepaying for A-la-Carte purchases. Deposits can be made at any time during the school year at any cash register.

Note: Attention Parents of High School Students, Belleville High School is not connected to the Zangle Food Service feature. Please have your students check with the cashier for their Account Balance. If a list of items purchased is needed, please call the Food Service Office at 734-697-0011 between 8:00 a.m. and 3:30 p.m. Thank you.
